DETAILED ACTION

Election/Restrictions

Applicant's election of Group I, claims 1-16 in the reply filed on February 15, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the presence of Group II, claims 17-28 to an invention non-elected without traverse. Accordingly, claims 17-28 have been cancelled.

Allowable Subject Matter

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner has reviewed the prior art in light of applicant's claimed invention and finds that the claims define over the prior art. The prior art does not disclose or suggest *inter alia* the limitations "...forming an etch stop layer formed in a polysilicon region of said poly-metal structure; removing at least a portion of the etch stop layer to form a fully poly-metal stack including an exposed oxide region along a sidewall of the stack"

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
